

Heat Wave

1K Phew

Never switched up on day ones, I stay faithfully
Yeah
Tryna waste your life, no way you can hang with me
Carvello

Better chill fore you feel the heat wave
I can tell when you feel that heat wave
I don't wanna spend my life swimming' in them big flames
Had to get myself back right when I felt that heat wave
That heat wave
I used to be down with no money (No)
And now we go flyin' through countries (Yeah)
So get you a plate if you hungry (Get you a plate if you hungry)
Yeah
I fell out the sky with no bungee
And now you can feel the tsunami
Put that on my uncle and auntie

I been daydreamin', since a lil' kid
Feelin' that mud, they rep from the pigs
Saw my lil' cuz he throwing it big
Stevenson Middle with chief in no seats
Thought it was Gab but it was just me
Still reminisce about when my brother slid, yeah
I remember watchin' Fresh Prince of Bel-Air
Shows was tryna get livin' like Melway
Now they show me love through them airwaves
And I know we ain't close to perfect
But Lord knows I'ma keep number one anyway
Why you judgin', you don't know me

Never switched up on day ones, I stay faithfully
So you know one thousand gang came with me
But I still don't want the pain changin' me
Tryna waste your life, no way you can hang with me

Better chill fore you feel the heat wave
I can tell when you feel that heat wave
I don't wanna spend my life swimming' in them big flames
Had to get myself back right when I felt that heat wave
That heat wave
I used to be down with no money
And now we go flying' through countries
So get you a plate if you hungry
Yeah
I fell out the sky with no bungee
And now you can feel the tsunami
Put that on my uncle and auntie

Uh, put that on my sister and niece
My mama look just like my auntie
How I been broken to pieces
Somethin' feel like nothin'
Ain't no Skrull gone mess with my conscience
Ain't nobody gone mess with the money
How does it feel with nothin'?
How does it feel to struggle?

I never felt it
I wanna feel the lovin'
I wanna kill them
Kill, kill my brother
I ain't playin', I'm serious
Just in case you were curious
That's how I been feelin'
You can see in my eyes I'm furious
They been mad at me in my bag
No one glad for me
They even laughed at me in my class
I can rap and sing
Nobody was there
Nobody was there
Nobody was there
Nobody was there
I wasn't your average teen
Michael Jack with me, I had black with me
Nobody but black in me, on the back of the street
We could barely eat
Talkin' about barely sleep
Pill, pill, pad the lean
Workin' that master key

Better chill fore you feel the heat wave
I can tell when you feel that heat wave
I don't wanna spend my life swimming' in them big flames
Had to get myself back right when I felt that heat wave
That heat wave

Never switched up on day ones, I stay faithfully
Yeah
They tried to cancel me, take all my anger on fashion week
Rockin' that scarfs and mink, drip to the floor makin' melodys
