

High Up

1K Phew

Darling, promise its not a jungle, this a garden (Garden)
I can't give all this fruit to you (Yeah, yeah)
My darling, but I'll show you how to grow it if you starving (Yeah)

C'mon, I got the need for speed
Coming through big major league
In the hood they proud of me
But that ain't it (that ain't it)
Look at all we did
Had to build that bridge
I'm a kingdom kid

So I still want the penthouse, yeah, and I still wanna be high up
Getting it we live high up
Tryna' get a lil higher
I wanna be high up
Why you looking like that c'mon'
Stop actin' like that just c'mon'
Don't look back just c'mon'

They be like that just c'mon', got a plug no in between
If you do it like that, you on
Make it straight no limousine
Got a bag it won't be long, gotta get where you belong
Got a million guys calling my phone
But there still ain't no place like home
I got designer on me, I got the shine on me
We had to ride on E, made it, finally
I'm the word around town, that golden child
They gon' decide on me
And I really be living this lifestyle, these folk be lying on me
And I be like back, back, back, back, back it up
When you see that rack, rack, rack, rack, rack (back it up)
Even when I'm low I'ma go from this to that (no cap)
Ain't know where you at (cmon)

C'mon, I got the need for speed
Coming through big major league
In the hood they proud of me
But that ain't it (that ain't it)
Look at all we did
Had to build that bridge
I'm a kingdom kid

But I still want the penthouse, and I still wanna be high up
Getting it we live high up
Tryna' get a lil higher
I wanna be high up
Why you looking like that c'mon'
Stop acting like that just c'mon'
Don't look back just c'mon'
