

Long Way

1K Phew

I was cruisin' down the road until I went the wrong way (wrong way)
I was hustlin' at the wrong time on the wrong day (wrong day)
Shakin' my head like, "Oh man, I had a long day" (shakin' my head)
I just tell my mama, "You can tell we came a long way" (hey)
Long way, long way (long way)
You can tell we came a long way (you can tell we came a long way)
Long way, long way (long way, long way)
You can tell we came a long way (you can tell we came a long way)

Look, all my old friends probably can't recognize me no more
I was in the den, now I'm eatin' good, kept me at the top floor
Somebody tell me the score
'Cause we got blessings in store
Let 'em fall, let 'em pour
We got a new wave on the shore
Pull up to the scene with the whole team, family matters, huh
Livin' out my dream, livin' like I'm Ream, what's coming after?
Moments I gotta go capture, livin' like a movie but I'm no actor
I'm just makin' sure that I'm in the rapture
'Cause if you ain't ready, it's a disaster

I was cruisin' down the road until I went the wrong way (wrong way)
I was hustlin' at the wrong time on the wrong day (wrong day)
Shakin' my head like, "Oh man, I had a long day" (shakin' my head)
I just tell my mama, "You can tell we came a long way" (hey)
Long way, long way (long way)
You can tell we came a long way (you can tell we came a long way)
Long way, long way (long way, long way)
You can tell we came a long way (you can tell we came a long way)

Gotta go hard 'cause life isn't easy
Depending on family, delete me
Now the same people just told me they need me
Prayin' so I can get stamina
I was weak until I opened my eyes
Now I got the keys like a janitor
Came up unexpected like a surprise
I ain't got time for the lies
Too many snakes in disguise
Please stay away from them guys
Especially when you on the rise
Came a long way from the junkyard days
Now they mad they can't pull me apart
I got nothin' but respect in my heart
Thinking 'bout finishing right when I start, yeah

I was cruisin' down the road until I went the wrong way (wrong way)
I was hustlin' at the wrong time on the wrong day (wrong day)
Shakin' my head like, "Oh man, I had a long day" (shakin' my head)
I just tell my mama, "You can tell we came a long way" (hey)
Long way, long way (long way)
You can tell we came a long way (you can tell we came a long way)
Long way, long way (long way, long way)
You can tell we came a long way (you can tell we came a long way)

Long way
We came a long way, we came a long way

Long way (hey)
We came a long way, we came a long way
Long way
We came a long way, way, long way
Mama said age don't mean you grown
Just 'cause you home don't mean you belong
