

Read It

1K Phew

Reading rainbow (I told y'all about the single already)
Butterfly in the sky (That baby out there readin' now)
I can go twice as high (I be tappin' in for real)
Take a look in a book, reading rainbow (Nah, it's in there, I promise it's in there)
Put your hands in the air for Cardec

I don't just got the word with me, I read it
Hop in the the back of the truck and be seated
Came a long way from most wanted, I'm needed
I told the devil it's up, he got heated
Just like a welcome mat, I'm undefeated (Let's go)
I got the trophy for y'all to see
If it's too heavy, don't gotta keep it (Yeah)
Give it to God and just leave it (Yeah)
I can do anything
With the sauce, I was born with the remedy (I was born with it)
Not one thousand, I keep it infinity (One thousand)
I'm a big dog, I made it with Emily (Dog)
And it's no lookin' back
Even if I'm on a plane and someone keep kickin' me
And I'm stayin' on track
Even if I'm drivin' a train, and I can't even drive a train
Let's go, I'm straight out the tunnel, look engine done caught
I think I can, I think I can, I think I can, I think I can, I think I can
Wait, wait, hold up, I know I can
I ain't gon' look up a scripture
I don't need to wait on you boy I'm a grown man (Grown man)
Don't wanna be 'round no yesman (Yeah)
Need you to tell me I'm wrong man (Need you to tell me)
It's not on the way if it's already done (Our work is done)
Shinin' too bright, I put shades on the sun
Don't need no spotlight, I'm already lit (Already lit)
Go tell the pastor this real as it get (Real as it get)
Bring out the camera, got drip on the fit (Bring out the camera)
1KF, 116, yeah

I was too smart, but I can get in trouble (Yeah)
If I didn't get it right then I always would suffer (Woo)
Lovin' late nights when I'm havin' no supper
I got finesse and I'm winnin' out fodder
I come from the city where you better call it good
They put it up if you ever got problems
I pray for my city 'cause it's getting weak
And yet you be posin' upright with a blicky
Being fair I gotta skate, goin' skrrt skrrt (Skrrt)
Goin' on high like I caught me a fever
Caught up on the beat, gotta beat on a meter
I too vicious, I'm ridin' around with my buddies
Our Bibles they hit like they guns in some Halo
He gave me a Draco then gave me a halo
I study my Word tryna do what it takes (Yeah)
Cross on my neck, drippin' like it's just rainin'
You just gotta be poor just to claim it
It's Christian
Man my neck it was surfin' on problems
I'm livin' that water, now I'm tryna save my partners

I been the corner, I'm ridin', I'm speedin'
I got a roof in the Garden of Eden
I'm doin' things that they never thought I would maintain
You know it man, I ain't in the chain game, that's a shame (Woo)

Yeah, I can read the rain, just like I read the room
What you gon' do?
Beat the pain, beat it down black and blue, like it's the news
Feed the gang from the bottom my shoe, got the whole crew
Hard to see the same, probably 'cause life brand new (Vert Mob)
Covered in red blood
Yeah, head on a swivel
Look left to right, I think that boy up to somethin' (Yes sir)
They really thought it was something
Let's go turn up the heat and go blow up the summer (No cap)
It's 1K, the Mob, the devil in awe, how you go big on big?
We live unashamed, the word on my brain, tell me 116
Take it up whole 'nother level
The demons get buried just go find a shovel
And the big body town go nobody you see just go get the vessel
Just check out the rock and put down the walk
Now I see the grass is green
It's hard to pass on the lean
But I still made a play for the team (Uh, huh)
We're the face of the league
We run it back, run it back, run it back, run it back and repeat
It ain't no way
No way I could get it back for them to go fall at my feet
We're big, take it, front row seat
From the motherland, big country boy, big 843

Now with the Rollie and flooded it out, gon' be flying next time
After the rain when the sun come out, that's a rainbow sound
Why they take what he made as a sign to remind us about warning your pride a
nd your silence?
You would know if you opened your Bible
Is it God that be guidin' your garden?
Got the juice, walk around and I drink it
With my brothers, got bread and we break it (Skrrt)
Now that bread it have tears but we ate it (Woo)
When we do just remember the greatest
In my email a feature from Phew
In my DM like I'ma need two
But you said that the album was done
Now we givin' out verses for fun?
Give him twelve like he breakin' the law
He gon' tell if he countin' the cost
He like Joe he just say what he saw
We not runnin', we bearin' the cross
Greet my people, we came from the block
How we will, we ain't choppin' no rocks
Middle, Ten I got special with opps
Our records, they reppin' 'bout props

Reading rainbow
Butterfly in the sky
