Look Atlanta that's where I'm from  
He took me out the slum  
Cause he want me to serve no folks  
But when that temper touch my thumb  
I tryna eat with every crumb  
Feeling so cold I never unthaw  
Jugging round the city for a paycheck  
With that double cut was on me  
I was in all night flexing  
Tell then dudes I wasn't with the basics  
But then I got tired and paceless  
I got to get my life some braces  
Goodness graces can't believe I was  
In that places Now I ride for my  
Go hard for my Ya I provide for my

Thank God for my testimony

Testify can't hold it tight Hallelujah to one who reign  
Testimony got a hundred of those  
I've been through it all  
Shoutout to the club  
Everybody in the mood  
Could have been dead and gone  
See you in the funerals  
Use to go hard on the liquor  
Had to get every drop  
Going hard nonstop  
Leading the club four o'clock  
Woke then went off to church Jesus put me to work  
I could never test a lot  
Jesus is the reason I serve  
I'm happy to still be alive  
Serving the God above

Serving him till I die  
No matter what they tell  
Headed to the top  
I'ma lift your name up high  
Don't know what you saying  
I thank God for life
