Heard you used to be buckin' and boomin'

And I'm piped up for real like I'm skies
They look up and see how we got it
And it will get real if you do it like that (Like that)
Had to stay down with it four flat
Four flats on the Cadillac
Hey, stop going up like Jack (Like Jack)
Had to hit the block and get 'Crae
Tell 'em we'll be right back

Right now, wooh, right about now (Let's go)
Right now, c'mon, right about now (Wait a minute, what we doin'?)
Might as well just take off on 'em, right about now

Ain't know we gon' take off like nroom
Look at me I just took off on 'em, nroom
Boy you know we gon' take off on 'em nroom

Time to go Wild N Out, yeah

Lord is my witness, I handle my business
Put on for the city, became a lieutenant
116 in this, 'til God say we finish
I quit smoking spinach, I'm high off of winning
Won't let the hate get the best of me
Walk through the door, open sesame
We cookin' up, check the recipe
Pray for the opps that they rest in peace

Get out my way
I'm tryna work on my faith
I been up walking away
Sorry for dripping on stage
Stand at attention
Y'all forgot I'm on a mission
Y'all forgot Ottoman did it
All they been cappin' I live it
Y'all ain't got off of your pivot
Let's get back to business

Can I get a witness?
Talk different from the beginning
I was just talk in a minute
No, we not finished
When you get through with your sentence
Watch out for Dennis the Menace
This ain't no scrimmage
Look at you, why would you put on?
Stick to whatever you stood on
I'm at they neck 'cause that's one of the places I'm keepin' my foot on
(Phew Montana)

C'mon
Nroom
Ain't know we gon' take off like nroom
Look at me I just took off on 'em, nroom
Boy you know we gon' take off on 'em nroom
Right about now, ooh
