

Disappear

1nonly

It's funny how all I see is faces
'be if I go away, I could disappear with no traces

If I disappear from this world, would you think about me?
And I know that it's selfish, but it's so funny that you never
get the hints that I'll leave when I'm gone
What's the cost, am I helpless?
And you've always said I was the one for you
When my time comes, know I did it all for you
Said "Fuck you" once, now you on the loose
Only the money that I make keep me off a noose

If I disappear from your life, would you chase me? (Would you c
hase me?)
Even if you don't feel the same, you better tell me (Fine)
I don't wanna fall, or be lied to
The songs that I write for you are saying "Help me" (Damn)
Girl, let's talk it out, change it up for the one time (One tim
e)
You always tryna argue with me through the whole night
I'll slide through when you need me, I won't pass by
You know I'll always show up in the long ride (Shady)
'Cause, bitch, you my ride forever
I don't wanna see you posted up with another man that's not me
(Hello?)
This money come clutch, but it's not enough, girl, I need you h
ere, I don't wanna feel this lonely (Ha)
Whenever you around, it's a feeling that no other could create
'cause your heart took away my blue (My blue)
I wish we'd stay together, but I know our lifestyle is differen
t, but I wonder if we see that shit through

But I would never let you go
'Cause you steady runnin' in my mind
Can you tell me why it's always cold?
It's 'cause you not right here by my side
But I would never let you go
'Cause you steady runnin' in my mind
Can you tell me why it's always cold?
It's 'cause you not right here by my side

If I disappear from this world, would you think about me?
