Working hard again just to text away from break

Hahaha, let's go

Said, bitch, stop stalking  
Walking down a dark path  
Wish I never traded your love for these racks  
I'm gone in the rain, I'm down bad  
Only call me when you see me going up, so sad (Ayy, ayy, ayy, ayy)  
Said if you wanting me back then just tell me (Just tell me)  
Back then you wanted to farewell me (Farewell me)  
Now I'm getting these bags by my lonely  
Said to come through only if you gon' hold me (Ayy, ayy, ayy, ayy)  
Stop stalking

When you said, "It's okay," just forget about it, girl, I'm fine (About it, girl, I'm fine)  
Money can't buy happiness for others, to a few, get paid  
That's me, that's me, that's mine (That's mine)  
Now I'm making hits, always see you dance  
Remember back then when I thought that I was always fuckin' miss  
I'm done, holy fuckin' piss  
Knew you was a bitch from the start (Ayy, ayy, ayy, ayy), the first text you sent, like- (Ayy, haha)

It's been years, get out my head (Out my head)  
A lot of time past remembering the things you said (Said, said)  
They told me, "It's not a big deal," so, instead (Yeah, yeah, yeah)  
I should be focused on my bands, stackin' all my bread (Let's go)  
But like, fuck, where you at? (Where you at?)  
You never hit my phone anymore, and that's whack (That's whack)  
I'll never find love 'cause I let it find me (Yeah)  
So if you come back, I might see the flag green (Bitch, huh)  
Now I'm spending big bank rolls, so I can get a feel (Get a feel)  
The money refill my heart, but it will not heal  
Rough past with her, so I put up a shield (A shield)  
But how she falls around you in this open field (Yeah, yeah, chill, bitch)  
But it's forever and ever, heart's cold, been shot with a thousand Berettas (Ah, ah)  
Different thoughts in my head, how could I have been better?  
But that's past, since start, wish I never had met her (Met her)  
But I don't know, don't hit my phone (Don't hit my phone)  
Yeah, I like you too much for you to know (Yeah)  
And once I opened up, it's the days drove off  
Said once I opened up, it's a day call-off (Yeah)  
Stop stalking me, stop feeling me (Yeah)

Stop stalking me (Yeah), stop stealin' tees (Yeah, yeah)  
Yeah, I need my shit back for a lovely  
Days down but I thought she was lovin' me (Ayy, ayy)  
I remember all them nights-

Said, bitch, stop stalking  
Walking down a dark path  
Wish I never traded your love for these racks  
I'm gone in the rain, I'm down bad  
Only call me when you see me going up, so sad (Ayy, ayy, ayy, ayy)
