In Japanese, "Ain't shit" is "□□□□"

Y'all hoes □□□□

Wait, hold up (RonRon do that shit)

I'm finna turn this bitch up

Bitches run they mouth, probably for the clout

Bitch, you really trash, I'm finna take it out

Weave in the bag, ass on the couch (Wow)

You ain't never met me, finna know me now

I ain't never met these people, why my name in they mouth? (Shut up)

I ain't never met these people, what is there to talk about? (Shut up)

Any bitch that tryna speak on me tryna call me now

I'm finna go stupid, don't calm me down

I ain't never tripping over hoes, I'm cautious now

No pressure, every situation, I boss it down

I ain't never lying to these people, I'm off that now

Great fight fucking with these hoes, I lost that round

Paint a picture of my face when you think of a clown

Don't let that go over your head, just tie it around

Bitch asked me a question, I thought of a clown (Wow)

Big shotty to the body, I shot her down

Bitches love to talk 'bout everything but that bank account

Why I'm on they wig? 'Cause my name always in they mouth

When I'm finna stop poppin' it? When they spit it out

I don't understand shit 'cause I ain't tryna figure it out

Let me get the two-hand twist with the spin around

Ayy, look, from now on, these the rules

If my name in your mouth, this how I'm coming

Yeah, yeah, yeah

Let me get the two-hand twist with the spin around

After that, shut the fuck up, bitch, sit down

Heads up, I would not advise you to stick around

Now this the part where you go missing now

This the part where you go missing now

You a clown, move around, get up out my face, yeah

Never met, you is not a thing, never you and me
