

# Faces

2 Unlimited

Look around you  
What do those faces tell you?  
Faces, joy and pain  
Faces, faces everywhere

Faces  
All around different faces I see  
Some are happy, some in misery  
They express joy and pain

Now two faces are the same  
People, people all over town  
Some of them are poor and others wear a crown  
I've seen a lot of many faces

Joy and pain in different places  
Open your mind, set yourself free  
Figure it out, what could it be?  
Sympatise, understand

Give love and peace to the other fellow man  
Faces  
Faces, joy and pain  
Look around you

Do you see the faces?  
What do those faces tell you?  
Everywhere I go, different faces I see  
Faces

All around different faces I see  
Some are happy, some in misery  
They express joy and pain  
Now two faces are the same

Playing with your life, playing with your soul  
You all scream out "I'm the one in control"  
Killing of the colors, silly stupid games  
You know who you are without no names

Don't mess the world 'cause that the sequal  
Open your mind cause we talking about the people  
In the world, all kind of places  
Different races, different faces

Different faces  
Everywhere  
Faces  
All around different faces I see

Some are happy, some in misery  
They express joy and pain  
Now two faces are the same
