

HIGH WORDS SOBER THOUGHTS

20TOKENS

High words
Sober thoughts
Kill me with
Your sharpest truth
Make me lose myself in
What you told me before
But I won't
Anymore

I thought I found my salvation
In breathing the same air with you
My overthinking just killed my happiness
But I was never wrong

The thing I know is that
You can hurt me so bad
But I will still care about you
And this twists my head

High words
Sober thoughts
Kill me with
Your sharpest truth
Make me lose myself in
What you told me before
But I won't
Anymore

You put me on the verge of falling
Into the depths of nowhere
How can just words be so cruel
Cut with them
Me again
And again

High words
Sober thoughts
Kill me with
Your sharpest truth
Make me lose myself in
What you told me before
But I won't
Anymore
