

# PRIVATE GHOST

20TOKENS

I wanna die next to your door  
And to be your private ghost  
Treat me right if you don't wanna  
Haunt you for the world you burned, I  
Wanna die next to your door  
And to be your private ghost  
Wanna die next to your door  
Wanna die

I wanna die next to your door  
And to be your private ghost  
Treat me right if you don't wanna  
Haunt you for the world you burned, I  
Wanna die next to your door  
And to be your private ghost  
I just can't anymore  
Kill me or let me go

This life means nothing to me  
This life means nothing to you  
You just chewed up all my dreams  
And stuck by words with no truth  
My heaven can't take you, oh no  
My hell can't make you my own  
My mouth is full of razors  
Give me a slap and pick them off the floor

I wanna die next to your door  
And to be your private ghost  
Treat me right if you don't wanna  
Haunt you for the world you burned, I  
Wanna die next to your door  
And to be your private ghost  
I just can't anymore  
Kill me or let me go

Tell me you love me  
Then tell me I'm nothing  
But I swallow this  
But I swallow this

Ask me to stay  
Then throw me away the next day  
But I swallow this  
But I swallow this

I wanna die next to your door  
And to be your private ghost  
Treat me right if you don't wanna  
Haunt you for the world you burned, I  
Wanna die next to your door  
And to be your private ghost  
I just can't anymore  
Kill me or let me go
