... charged with murder after a parking dispute in Florida. 19-year-old Jeffery Alexander is being held without bond. He was a passenger in a BMW that was trying to parallel park in a tight space but ended up hitting a Buick several times. The Buick driver and another man who were standing nearby confronted them. Police say Alexander fired several shots, hitting the Buick driver in the leg and fatally striking the other man in the back. The BMW then crashed into two police cars several blocks away. Two officers fired at the car, killing one of the four men inside. Three others were arrested, including Alexander
