

All this money I've been spending all day
All this ice can let them take it off me
They laced his Percocet with fentanyl
The streets get vicious so don't get involved

Get on the drugs and start relapsing
Ain't signed up to be no rapper, shit just happen
Lost three brothers in a year, I been through mad shit
Haters see me going up they tryna tap in
Streets get cold, yeah that's a warnin'
Found this body in the snow, early mornin'
Killed her only son, his mother always mournin'
She ain't know her baby boy was out here scorin'
Way too caught up in the street life, nigga
Catch him slipping at the street light, hit him
Lost my dog and sleep for weeks, my nigga
Crazy that you gotta rest in peace, my nigga

All this money I've been spending all day
All this ice can let them take it off me
They laced his Percocet with fentanyl
The streets get vicious so don't get involved

All this money I've been spending all day
All this ice can let them take it off me
They laced his Percocet with fentanyl
The streets get vicious so don't get involved

All this ice I probably set it off
Caught a murder and no bail at all
They lacin' perkys with fentanyl
See it in his eyes he probably tell it all
Made a promise to my niggas we gon' ball
Niggas hatin' wanna see me fall
You know all you gotta do his call
Mama threw the plaques up on the wall

All this money I've been spending all day
All this ice can let them take it off me
They laced his Percocet with fentanyl
The streets get vicious so don't get involved

All this money I've been spending all day
All this ice can let them take it off me
They laced his Percocet with fentanyl
The streets get vicious so don't get involved

All this money I've been spending all day
All this ice can let them take it off me
