I'm the one put the town on the map
Throwin' switches like we in a rack
Wolf quarter, the gang on my back
Keep a blicky, probably never last
I know they ain't think I'd ever last
Niggas broke, I'm out here runnin' laps
Bro ain't gone, he just takin' a nap
I get faded and start to relax
I done came a long way from the trap
Took a while, but I had to adapt
I woke up in the crib in the hips
I forgot where the hell I was at

I'm in Nobu, the one that's in Malibu
I done came a long way from the avenue
Hella bands and my bitch a baddie too
Top floor, the one with the better view
I got her lit at the fountain
Climbin' my dick like a mountain
She say she love when I pound her
She tryna look all around her
She know that pussy astounding
I get to bitin' and growlin'
Hit from the back on the ground then
I want a couple of rounds then
Casamigos, we lit in the lounge with it
Lululemon, she all outta town with it
In the XC, it goofy be clownin' it
Ain't gon' never go back, I be houndin' it
All you hear is the clap when I'm poundin' it
Now pussy so wet, probably drownin' it
New suppressor, the blick got no sound in it
Drop all, I'm tryna walk him down with it

I'm the one put the town on the map
Throwin' switches like we in a rack
Fourth quarter, the gang on my back
Keep a blick, he probably never last
I know they ain't think I'd ever last
Niggas broke, I'm out here runnin' laps
Bro ain't gone, he just takin' a nap
I get faded and start to relax
I done came a long way from the trap

I'm in Noble, the one that's in Malibu
I done came a long way from the avenue
Hella bands in my bitch a baddie too
Top floor, the one with the better view
You would think that this shit a shot rack
Get to shootin' like we in Iraq
Probably closer to your life while I lack
I think I probably died with my strap

I think they stopped me right in my back
Probably be dead if it wasn't for rap
Hop in the car, then we fled, it's a Scat

I'm the one who put the town on the map
I'm the one who put the town on the map
Throwin' switches like we in Iraq
