

Different Frequency

24hrs

Damn James

Dro, give me the green light

We been on different frequencies
(Yeah, that's what so special)
You were the first to believe in me
(I don't feel regretful)
(Your love was so special)
Up in the night
Wrong but so right
We're in so tight
We're in so tight
Kissin' on your body
We been argue hardly
Lickin' on your body
Lickin' on your body
You wanna get a new-
You want a new body
Are you in Armani?
You can buy a new 20
Ayy, 20, I'm over you
Yeah, yeah, yeah

I know that your friends been tryna doubt us
They know nothin' about us
Over time, we had to build trust
(Over time, we had to build trust)
I know that your friends been tryna doubt us
They know nothin' about us
Never find a like you
Over time, we had to build trust

Damn James

Take me out
She wanna take me out
Baby, as long as she like the glow
We gon' try what me and you called
Run them things up beside the sea
And tie me up, you tried to leave
Something 'bout you just make me freak
Something 'bout you just make me weak

These drugs inside of me (Of me)
You don't see this side of me (Of me)
Drip out with they hide and seek
Prolly 'cause you like to try them things
She said it's crazy that you stayed so long
Said I'm in 'cause I stayed so gone
Love lost to the path I'm on
She said, "20, please come home"

Laptop dreams, let me pass away
Been through me since you cast away
Played them things, you get lost emotion
Make it true, I just love devotion

Take me out
She wanna take me out
Baby, as long as she like the glow
We gon' try what me and you called
Run them things up beside the sea
And tie me up, you tried to leave
Something 'bout you just make me freak
Something 'bout you just make me weak
