Ay, Twenty, you know that I been working hard  
Climbing up and down that pole, whew  
Clothes come off, spend a whole bunch of money  
If you kiss her, I'mma blow more money  
You know I like what you do  
I'm not gon' ever, judge you  
Drop top two seater, just us two  
I came, tonight, to find your type  
I'm Twenty, this no hype  
Umbrella, umbrella, let's make it rain  
It's 24hrs, and it's T-Pain  
Just you and your friends

I'm up in the air like that McDonalds sign, look like open legs

Girl, I been drinking straight Henny all day, put that Coke in there  
You see that sunshine make me unwind, I stay woke in there  
Girl, put that gun down, that ain't allowed, in the [?]  
That bad little sinner, damn, that ain't enough for a nigga, how would I spend a whole million  
Spend a whole million, I'm tryna show you my vision, daily threesomes with Brazilians  
I'm on that west coast production shit  
Tell that hoe she can suck a dick  
The price just going up a bit  
And you know that meat looking succulent  
You ain't never lied  
She wanna ride on that Pain train, said she never tried  
She said me and God like the same thing, she feels so alive  
But I leave her dead in the bed  
And I leave the bread on her head  
Tell her next time the prices better not

Go up  
Then come down  
Go up  
Then come down  
Go up  
Then come down  
Go up  
Then come down

I'm not judging you  
(Yeah, but them prices going down)  
I'm not judging you  
(Yeah, but them prices going down)  
I'm not judging you  
(Yeah, but them prices going down)  
I'm not judging you  
(Yeah, but them prices going down)  
Then come down
