What I need from you

I need your L-O-V (love, love, love, love)  
Need you to love on me, need you to love on me  
I need your L-O-V (love, love, love, love)  
Need you to love on me, need you to love  
I need your L-O-V-E, girl  
Need you to love on me, love on me  
I need your L-O-V-E, oh  
Need you to love on me, need you to love on me

I've been waiting at your front door  
We made mistakes but we should let 'em go  
You had a dream, didn't turn your dream to mine  
We said, "I do," baby, keep that in mind, yeah, yeah, look  
Rain, rain go away  
I wish my problems would just run away  
You got a smile that could change my day  
Wouldn't have it any other way, yeah  
Let's hit the movies  
Afterwards we go and get some smoothies  
You just been showin' me, you not owin' me  
Girl stop telling me, I need your L-O-V  
Yeah, yeah, swear I need your L-O-V

I need your L-O-V (love, love, love, love)  
Need you to love on me, need you to love on me  
I need your L-O-V (love, love, love, love)  
Need you to love on me, need you to love  
I need your L-O-V-E, girl  
Need you to love on me, love on me  
I need your L-O-V-E, oh  
Need you to love on me, need you to love on me

I need you more than me, on me  
I need your trust most importantly, that's priority  
I don't know why they say the best things in life are free, I disagree  
We go Ludacris in Giuseppe, girl, what's your fantasy?  
Let's make it reality  
Good dick might make a bitch cry, mmh  
That's when you know that it's real  
Shawty say I can't live without you  
Now she trying to jump out the ride  
I'm doing 90 on Lakeshore Drive  
I guess Jesus was holding the wheel, for real  
'Cause I still drive you crazy  
More than what you bargained for  
I heard you got born again  
I made you go find the Lord  
Heard your man a junior preacher  
I'm a Junya Watanabe, boy  
I got your face tattooed on my body  
Girl you know I never can forget you

I need your L-O-V (love, love, love, love)  
Need you to love on me, need you to love on me

I need your L-O-V (love, love, love, love)  
Need you to love on me, need you to love  
I need your L-O-V-E, girl  
Need you to love on me, love on me  
I need your L-O-V-E, oh  
Need you to love on me, need you to love on me
