

Nudies

24hrs

Ayy, 20, I heard you in town
Damn, James
24hrs, 20 trippin'
Yeah

Don't you playin' with my time and my money
I'm by myself because the talkin' get lonely
I'm with some bitches that just wanna go party
Got 15k, I make it fit in the Nudies
If I take off, make time for me
Matchin' Rolex, shine with me
If I take off, make time for me
I'll cut you off if you lie to me

Havin' nightmares from the things that I saw
If I told you, you would say, "Cut her off"
When it was cold, I just got left in the dark
I got these chains just to cover my heart

I don't wanna say too much, I move on
Too much, I move on
You been tellin' all your friends that I'm wrong
The same girls at the shows screamin' my song

Don't you playin' with my time and my money
I'm by myself because the talkin' get lonely
I'm with some bitches that just wanna go party
Got 15k, I make it fit in the Nudies
If I take off, make time for me
Matchin' Rolex, shine with me
If I take off, make time for me
I'll cut you off if you lie to me

Bitch, I'm out of here
Different stratosphere, ssh
And I stay prayed up, hope I have a better year
Yeah, yeah, yeah

I don't wanna say too much, I move on
Too much, I move on
You been tellin' all your friends that I'm wrong
The same girls at the shows screamin' my song
I don't wanna say too much, I move on
Too much, I move on
You been tellin' all your friends that I'm wrong
The same girls at the shows screamin' my song

I'll cut you off if you lie to me
Matchin' Rolex, shine with me

I don't wanna say too much, I move on
Too much, I move on
You been tellin' all your friends that I'm wrong
The same girls at the shows screamin' my song
If I take off, make time for me
Matchin' Rolex, shine with me
If I take off, make time for me

I'll cut you off if you lie to me

Damn, James
