Baby I need you to come through
Talkin' all that shit girl I'ma put it on you
Funny how things change so you doin' the same thing
Try and come back to the crib
Girl you crazy, girl you crazy
Hang up the phone
I'ma hit you right back, I'ma hit you right back
Cause I got another call on my line
I'ma hit you right back, I'ma hit you right back

Textin' my phone like you miss me
Last you were "fuck you nigga" all in my face tryna diss me
And I cannot fall for that
This lovin' gave you all of that
You play Bonnie, I'll play Clyde
Brand new Chevy I know you wanna ride
Textin' your phone like meet me outside
You know I love you, you my favorite girl
You hold me down and we could rule the world

Baby I need you to come through
Talkin' all that shit girl I'ma put it on you
Funny how things change so you doin' the same thing
Try and come back to the crib
Girl you crazy, girl you crazy
Hang up the phone
I'ma hit you right back, I'ma hit you right back
Cause I got another call on my line
I'ma hit you right back, I'ma hit you right back
