

SAME

24hrs

24hrs

I feel the same
I thought that you should know
I feel the same
I thought that you should know
I spent a hundred on these diamonds so they'd shine like this
Me and you together, we should take a trip
You'd probably get mad knowing you gon' flip
Me and you together, we gon' make a grip

Wanna see me talk? I'ma need like thirty
I been in the gym, you know I'm up bright and early
We been going through it, man, this shit just annoying
You know this Young Twenty, gotta talk by appointment

I need a hundred, I feel like Simon
She keep me running, that my little baby
She count my money, we shop for minks
We off the drinks

Don't care about what nobody thinks
I thought that you should know
I feel the same
I thought that you should know
I feel the same
I thought that you should know
I feel the same
I thought that you should know

Hundred on my neck so I could shine like this
Me and you together, we should take a trip
You my ride or die, we gon' make a grip
You my ride or die, we gon' make a grip

I thought you'd be there for me
I thought you'd be there for me
I know that I'ma ride for you
I know that I'ma ride for you

I feel the same
I thought that you should know
I feel the same
I thought that you should know
I feel the same
I thought that you should know
I feel the same
I thought that you should know
I feel the same

Iced out, watch like zero degrees
I just got the crib with the imported trees
I just want the 'Rari just so I can speed
She said, "Twenty, please", you should say oh cheese
Beat you to the car then you gon' make me dinner
Lately when I'm with you I just feel like a winner
Me and you can last like a whole lifetime

And you can call my phone, it's your last lifeline
Because I'm there for you and I care for you
I'd ride for you, take the charge for you
Let's do it large for you
Say I'm in charge for you and

I feel the same
I thought that you should know
I feel the same
I thought that you should know
