

## Still Down

24hrs

I ain't mean to make you mad  
I ain't mean to make you mad at me  
I ain't really mean that  
I ain't mean to make you mad  
I just wanna make it up  
Let's smoke and let's fuck and get over it  
I'm done with the talking I'm over it  
We go through the motions we up and down  
We made it this far  
Let me know if you still down  
All the shit we've been through  
Let me know if you still down  
We ain't got nothing to lose

You talking like twenty not good enough  
We fight and we fuck and that's good enough  
You sold from Atlanta don't wanna move  
I'm sold by the cheque I don't wanna lose  
I put you on Kenzo and Gucci  
Hey twenty I heard you with Gucci  
I'm known I'm knowing you loving me  
Stay real stay down it's my loyalty

I ain't mean to make you mad  
I ain't mean to make you mad at me  
I ain't really mean that  
I ain't mean to make you mad  
I just wanna make it up  
Let's smoke and let's fuck and get over it  
I'm done with the talking I'm over it  
We go through the motions we up and down  
We made it this far  
Let me know if you still down  
All the shit we've been through  
Let me know if you still down  
We ain't got nothing to lose

Dolla please don't make me look stupid  
I know that you got all the groupies  
You come back around and you hit me raw  
I swear I don't give it to no one else  
Trust, trust me baby  
Ten toes down you got a real one yeah  
Someone's in their feelings  
Slow down girl, I'm just human  
We ain't gotta kill the vibe  
Smoke a j and keep it live  
Maybe we should go inside and make love

I ain't mean to make you mad  
I ain't mean to make you mad at me  
I ain't really mean that  
I ain't mean to make you mad  
I just wanna make it up  
Let's smoke and let's fuck and get over it  
I'm done with the talking I'm over it  
We go through the motions we up and down

We made it this far  
Let me know if you still down  
All the shit we've been through  
Let me know if you still down  
We ain't got nothing to lose
