

# Tell Me How

24hrs

24hrs

Lanz right here

8-20, I miss you

Think 'bout you all the time

You a five-star girl, I think that I just lost it

I been in the money but you been the one that's calling

Just don't let go (just don't let go)

I won't waste it all, yeah

You been all on my mind (on my mind, yeah)

You said if I fall in love, that's a lie (fall in love)

Never enough that's a lie (yeah), wasting our time (whoa)

I been tryna go back to those nights

It's on me, what you need, we in deep

Baby, let me hear what you been thinking

Take a breath, take a step, leave the stress

I know you been tired overthinking

Uh, can't get you out my mind (can't get you out my mind)

Think 'bout you all the time (think 'bout you all the time)

How did I mess up? (How did I mess up?)

Tell me how

Tell me how (just tell me how)

Tell me how (tell me how)

Think 'bout you all the time (I think 'bout you all the time)

Tell me how

Tell me all your needs

You the type to take the lead

Know they lying through they teeth

Got me thinking 'bout that sweet

I don't want no problems but for you I'd do the unknown

Hit me back when you're home

We could take this thing slow

And I been going off when I'm thinking all about you

Spend a little time, swear that it been way overdue

I'm running mad, I'm running mad

Promise I ain't gon' move

Got a hundred grand, bet a hundred grand

No, we ain't gon' lose

It's on me, what you need, we in deep

Baby, let me hear what you been thinking

Take a breath, take a step, leave the stress

I know you been tired overthinking

Uh, can't get you out my mind (can't get you out my mind)

Think 'bout you all the time (think 'bout you all the time)

How did I mess up? (How did I mess up?)

Tell me how

Tell me how (just tell me how)

Tell me how (tell me how)

Think 'bout you all the time (I think 'bout you all the time)

Tell me how
