

Voices in my head, I can not hide from it  
Let's have a party, Project X

Voices in my head  
I can not hide from it  
Told her I won't do no drugs  
And then I'm back again  
Said she won't let me fuck  
And then we smash again  
Said I'm gon' quit this rappin'  
And I rap again  
Told her promise I won't snap  
And then I snapped again  
Said you was my dog  
You wasn't gon' cap again  
I cut you off 'cause I'm the boss  
And I'm too big to take a loss  
You cop like five, you cop like ten  
And we make shave some hundreds off  
I don't believe none of these rappers  
They ain't knockin' niggas off

We know your girl, I swear, on tour  
She was just toppin' niggas off  
With my banga treetop niggas  
They was choppin' niggas off  
Pull up, double park in Big B's  
We was blockin' niggas off  
Heard your man been drivin' Lyft  
And he been droppin' niggas off  
Now he can't bang the gang  
And he can't rock 'cause he too soft  
I know the real you, I remember  
When your pops was goin' bald  
You goin' big on the internet  
In real life, you ain't raw  
I'm ridin' 'round the city dirty  
With no seat belt, breakin' laws  
And I could never vouch for him  
Ain't cut from the same cloth  
Came in a Lamb this time  
Don't always come in the same car  
Voices in my head  
And they tell me keep goin' hard

Voices in my head  
I can not hide from it  
Told her I won't do no drugs  
And then I'm back again  
Said she won't let me fuck  
And then we smash again  
Said I'm gon' quit this rappin'  
And I rap again  
Told her promise I won't snap  
And then I snapped again  
Said you was my dog  
You wasn't gon' cap again

I cut you off 'cause I'm the boss  
And I'm too big to take a loss  
You cop like five, you cop like ten  
And we make shave some hundreds off  
I don't believe none of these rappers  
They ain't knockin' niggas off

I don't believe none of these niggas  
They be talkin' to the law  
They gon' tell 'em what they saw, yeah  
I don't got no problem  
With holdin' you down  
But loyalty is loyalty  
And findin' that's been hard for me  
I been feelin' pain but don't wan' overdose  
All my niggas smoke  
But, yes, I smoke the most  
Name a time in your life  
That I did you wrong  
The realer that they are  
Then they gon' feel this song  
And Dolla \$ign my brother  
Put him on every song

Ha, 24 Dollas  
Part two, deluxe

Voices in my head  
I can not hide from it  
Told her I won't do no drugs  
And then I'm back again  
Said she won't let me fuck  
And then we smash again  
Said I'm gon' quit this rappin'  
And I rap again  
Told her promise I won't snap  
And then I snapped again  
Said you was my dog  
You wasn't gon' cap again  
I cut you off 'cause I'm the boss  
And I'm too big to take a loss  
You cop like five, you cop like ten  
And we make shave some hundreds off  
I don't believe none of these rappers  
They ain't knockin' niggas off
