If I'm on your mind just say that  
Brand new Benz, brand new Maybach  
You got brand new friends, fuck way back  
If you my slime, can't change that

Yeah

Take a drive by the lake, we get high for some days, woah  
You my freak for the week, tryna dip in your creek for sure (For sure)  
You remind me of her, got a face that I seen back home  
Went on a mission now you back on 14th  
Bust another Backwood, roll another leaf  
Thinkin' I was Mac Dre, how you feelin' me  
Girl, we got memories from A to D.C  
You got a man but he won't ever be me  
And if he want smoke, tell him meet me at the Peaks  
Thinkin' 'bout you like a Frank song, sittin' at the beach  
Used to take the M train, now I'm in the Benz sayin'  
"I got five on it, baby girl, let's get keyed"  
Tried to build bridges with you, but you burned 'em  
Used to cross a bridge for your ass now I'm turnin'  
Drivin' off the deep end, we can never be friends  
Fuck you on a weekend still 'cause you earned it
