Overthinking

24kGoldn

Crying in the club, tears up on the dancefloor
Said you had enough, this ain't what you asked for
Money over drugs, but this gon' be my last puff
Tired of getting stuck wish that I could fast forward

This should be the time of my life
This could be a glamorous occasion
Woke up in the dress I wore last night
How you got me acting this way?
Burning the candle from both sides
You're giving me quite the reputation
Oh, you got me stepping out of line

But, baby, without you
I can't feel the heat of the night
I burn all day without you
I can't feel those butterflies
I fade away
I'm overthinking, I think I'm overthinking
I'm overthinking, I think I'm overthinking
You make the colours come alive
I burn all day

Overthinking, think that I'm overthinking
'Cause I been drinking, turning up every weekend
Overthinking, wondering when we linking
Can't take this shit no more
Paranoia, I got something spinning in my head
Avoiding words you said last night but then again
These voices, thoughts of disappointment never end
I'm dying oh, oh, oh

But, baby, without you
I can't feel the heat of the night
I burn all day without you
I can't feel those butterflies
I fade away
I'm overthinking, I think I'm overthinking
I'm overthinking, I think I'm overthinking
You make the colours come alive
I burn all day

Crying in the club, tears up on the dancefloor
Said you had enough, this ain't what you asked for
Money over drugs, but this gon' be my last puff
Tired of getting stuck, wish that I could fast forward

Without you
I can't feel the heat of the night
I burn all day without you
I can't feel those butterflies
I fade away
I'm overthinking, I think I'm overthinking
I'm overthinking, I think I'm overthinking
You make the colours come alive
I burn all day
