

## So Cold

25 Ta Life

Theyyyy  
They wanna break you down  
They wanna see you fall  
Stay true - Rise above it all  
So cold  
Heartless, so quick a feeling could change

Best of friends  
But now were bitter  
They say only the strong survive  
It's true, if you weak - it'll break you down

You became so cold  
You are so cold

All's I get left  
is two words to say to you  
Fuck you

You became so cold  
You are so cold
