

# Flashing Room

2AM Club

In the back of this Nissan  
You make me so hot  
I love you on fire  
That's just what this song's about  
Hair pressed against the skin  
My fingers on your blouse  
I'll keep you in my mouth  
And hope to never take you out

This means more than love in a flashing room  
And those clothes your fashion it dies too soon  
So lose those the floor is where they should be  
I tear down your walls and you set me free

Nothing can take me from her  
She keeps me on the ground  
Nothing can take me from her  
She never would leave me down

In the back of this Vegas lot  
You make my heart stop  
I love your clothes off  
But that's not what this song's about  
Legs over the stick shift  
You let the cloth rip  
Your fingers on my kiss  
Got me wrapped around your wrists

This means more than love in a five star suite  
And much more than kissing on easy street  
And rooftops in cities that never sleep  
They all search for something like you and me

Nothing can take me from her  
She keeps me on the ground  
Nothing can take me from her  
She never would leave me down

You don't even believe me  
Would it hurt to try  
I'd say you could complete me  
But there's no you in I  
Will I be here next year hold that next tear in your eye  
You know that I come every time you cry

In the back of this LA cab  
You drive me so mad  
Hold you til my hands bled  
That's the red I wish I had  
So much between us now  
Oceans but I'd swim out  
I'll keep you in my mouth  
And hope to never take you out

This means more than love on a silver screen  
And much more than love in a magazine  
And sweat beads you give me all I need

And this room it flashes for you and me

Nothing can take me from her  
I'm taking her on the ground  
Nothing can take me from her  
She never would leave me down
