

# We Must Groove

2Baba

Anyhow we be today  
No matter pressure wey dey  
Any obstacle on the way  
I go bulldozer am straight away

Even if I get fever  
Or my landlord don dey craze  
As long as happiness dey my radar  
I no go fit complain

I don't need to stop, to fly high, high  
I get natural high  
I don't need to think too much  
'Cause thinking na problem, instead I reason solution

For me-me to quit, for me-me to chill  
For me-me to flex and enjoy my life  
For me-me to give, without explanation  
For me-me to lead so e go be say

We must groove o, we go groove  
As long as your brain still dey function  
We go move o, we go move (Oya, tell dem)  
E no matter where you come from  
We must groove o, we go groove  
As long as your brain still dey function  
We go move o, we go move

Oghene do, oghene do  
Osolobrugwe do o  
The only flesh and the bone  
The pot of life na your own eh  
Because I'm feeeling the tension  
Feeling with the pressure  
Dealing with different problems of life  
I know that everybody gat dem  
Big man or small man  
It doesn't matter if you are black or you are white  
See ya tell dem

We must groove o, we go groove  
As long as your brain still dey function  
We go move o, we go move (Oya, tell dem)  
E no matter where you come from  
We must groove o, we go groove  
As long as your brain still dey function  
We go move o, we go move

Omo the party don scatter  
The people dem no want us  
Their mendula so reckless  
Dey affect their belief  
And if I thief, check am  
Dem no go believe  
How we dey spend money  
Not until when the money  
Tell me wetin I go do

Just to clear your eye-eye-eye, eye  
Anyhow you think am  
Omo e no concern me die, ah  
So make I just dey do  
Wetin I dey do  
If e no tell you  
Jeje ni ke wu  
No dey confuse  
You can't walk in my shoes  
No go shook your mouth for wetin no concern you  
Many thing dey happen but you don't have a clue  
Anything dem do, dem go start dey go  
Make you no go tell somebody say I tell you  
Let's just try to keep this shit between me and you

I don't need to smoke to fly high, high  
I get natural high  
I no need to think too much  
'Cause thinking na problem  
Instead I reason solution

For me-me to quit, for me-me to chill  
For me-me to flex and enjoy my life  
For me-me to give, without explanation  
For me-me to lead so e go be say

We must groove o, we go groove  
As long as your brain still dey function  
We go move o, we go move (Oya, tell dem)  
E no matter where you come from

See as she fine like mamiwater  
Omo see man-chester, see baka  
We go move o, we go move
