Baby, I'm telling you, ooh (2)

Okay, you just stick in my, stick in my head  
Baby, shut up and push the pedal to the metal, come on  
You should stick around after class ends  
We can confirm the crush, ain't no time to guess  
Baby, you, you jump the gun, your own start (Hey)  
Then you push it and pull it until you tear it all apart  
Baby, you, you gave your heart out to a star  
Just hold on and burn up, hold on and burn up

Hold on and burn up (Hold on and burn up)  
Hold on and burn up (Hold on and burn up)  
Baby, hold on and burn up (Hold on and burn up)  
Baby, hold on and burn up, burn up (Hold on and burn up)

Burn up, burn up  
I swear I'm wasting my time, I just  
I just need you to [?] to be something else [?] (Hold on)

Focus, focus  
Bitch, slow it, uh, hey, slow down (Slow down)  
She said it to my face during the slow song  
Hit me with that slap, girl, make my nose run (Hey)  
We can run a marathon, run it up, up, up  
When you see that light, you know what's up  
Yeah, you know what's up, you know what's up  
Don't forget your push up, push ups (Push up)

The only way to look is look up (Shh)  
The only way to look is look up (Hey)  
The only way to look is look up (Yeah, uh)  
The only way, the only way, the only way, the only way  
The only way to look is look at -

You just stick in my, stick in my head
