

ESCAPE

2hollis

Don't make fun of me
When you can't stand the look of yourself crying in the watchtower
Don't fake your war cry, I can read through it
Can't you hold it closer? Watch it wilt away
River, let it wash down, wash away my cuts and bruises
The mage lives alone in peace with the king, needs his dragon,
dragon

Escape
Escape
Escape

Tenflower, infinite power
So long, but create what's next
"What's next?" The dragon calls out
Don't know what I felt, but everything adds up
Adds up, adds up
Everything adds up
Adds up, adds up (Oh, oh)

Rooted to the meaning
Why the dragons leaving?
How I miss my brother
How I miss your lips, I miss
How I miss my friends, I'm dead
How I'm going to Farthenrift
One piece of me exists
And the other one lays dead
But the meaning stays in my feet to my bones to my hands, stay
Swim across the creek
Swim across the me, my mind's like a sea
I stay in the void, I stay in the trees
I stay in the Ten, 'cause that's my city
And my friends, they're with me, everything exists
Everything, it makes sense, everyone, they know me
I love everybody, everything, it adds up
