FINALLY LOST

They mask it, I'm fast, I'ma die from laughin'

And to crying til it passes, laughing til it passes, crying 'til it passes, I'll be crying 'til it passes

So much time lost, looks like some, starts off (Oh)

Let's get out my life and shit (Oh)

Lost some times, but I don't remember, don't even really care anymore (Haha,ahaha)

(Yeah!)

Hey mask it, I'm fast

Starting back from a laugh

Or to crying til it passes (Oh)

Back to my last plan, can't fuck it up again

A new assumption, a new feeling of indestruction

Clairvoyance (Yeah)

I felt it all arise, I felt my ego die

I watched it all collide, I waved it all goodbye

Indestruction ('Struct)

What does it mean when it won't break?

It's a concept that I face (Oh), but it holds me down stronger than before, oh

To the racks I'm passionate, hit that bitch I'm smashing (Yeah)

Ego, bitch, I'm lost in it, all my life evolved for it

I was picked on, kicked out, excluded

I couldn't feel like I was one

I had to find out where I'm goin'

Had to find my way, I'm gone

I say-

I say fuck what the cause is, can't fuck with these lil' boys

Uh, more money, m-more dragon, screaming bloody

I'm far from it, I had to just run from it

In the past, left it back

I'm attacked, by the fact

I can't lack

Cause I'm not you, cause I'm not you

Hey mask it, I'm fast

Starting back from a laugh

Or to crying til it passes

Back to my last plan, can't fuck it up again

A new assumption, a new feeling of indestruction
