Damn 2hollis

Ah, I'm walking straight down on my street  
They think they can be like me, but it's not that easy  
Okay, and these problems stay on me  
Shaking the anxiety, finally go to sleep  
Ah, ego death is hard to reach  
Focus on myself and then, maybe I could look and see  
Overflow with energy, right now you just talking peace  
I can't make the meaning  
And it feels like its closer every time, have to try to stay alive  
Wanna see you, wanna cry  
Dead man in my pocket, feelings I can't hide  
Put that problem to the side, gotta take my time  
It seems like you just wanna lie, watching me just like a spy  
Flicking on the lights  
Let the arrow fly  
Negativity inside, I can't seem to fight

Put him on a fly now  
Lights in the sky  
Touch my eyes now (Will you look at me?)  
Meta swing the sword it strike down  
Scriptures on the wall, ancient meaning  
I stay on the ceiling  
Everybody is breathing (Oh)  
Castle of magicians and they always stealing  
Ancient talisman I'm speaking  
I'm slowly peaking  
I'm wake but I'm dreaming  
Dragon that I'm feeding  
And they say, say I've gone too high  
Risk it on my life  
Put it on you, you decide  
I make nature cry  
I make nature wanna die (On you to try)  
Meta with me feel alive  
Had to breathe to stay alive  
Yeah, yeah, yeah  
Close my eyes, see the sky  
Ah hey yeah  
Meta make me feel alive
