

MIRROR

2hollis

Jarl of the Flower
Fire in my hand, I need power
Sounds getting louder, feel like I might die
Execute it over
Test my life, I light the fire
Lust makes of me anywhere
Poison, starlight iron, I look out of the blood dark mirror
(Blood dark mirror)
(Blood dark mirror)
(Blood dark mirror)

Pray, see, under-stand, me, me
Mirror, mirror
One (one)
Two (two)
Three (three)
I can't fuck with that anymore
Throw me down on the floor
I get back up for more
Look in the mirror, it's a war
Look in the mirror, not the same as before
Blood dark mirror
Blood dark mirror
Blood dark mirror
Blood dark mirror
