And what'd I get, huh? A broken car
Twenty miles left on a tank, a change of heart
You let her down, Lord knows I tried
You take my heart and spine and make my words come out in place
s they shouldn't be, oh no
Tie your shoes
I'm always torn apart, I'm the easy target for you, oh
But what'd I get? A memory of you
And when you hear me sing this song, I hope you know I miss you
more than anything

I'm living the dream, I said I'm living the dream, uh-huh
But what makes you think I didn't care every minute?
You were my everything
Oh no, oh no, oh no

Guide me through
Guide me through
Guide, guide me through, woo-hoo
Guide me through
Guide me through, ooh
And what'd I do, uh, to be right with you?
Love true
Instead, I chose the 2, uh-uh
Instead, I chose the 2
