Uh, I like the way that no matter what, we'll never change
If I die now, in my next life I'll still know your name
Give me something to hurt on, if you're cold, put my shirt on
Even if it's a burden, it's okay, it won't last long
I'm coming back home, meet me at the front door
Don't say a word now

You gotta learn, I got some nerve
Scream I'm the worst, sitting shotgun at the church
You say it first, it's just a word (It's just a word)
It's just a word, you say it first, I'll watch it burn (I'll wa
tch it burn)
I got some nerve

I got some nerve
I got some nerve

If you told me you love me (Love me)
Would I even try?
Probably not (Woo, probably not)
But I'd still say goodbye (Still say goodbye)

Still say- you love me
Would I even try? (Probably not)
Would I even try?
Ayy, but I'd still say goodbye (Still say goodbye)
