Uh

2hollis

I said I'm not pure enough to do whatever I'm supposed to do, so he hit me on the head and said "You will do it"
Uh uh, let's go
Let's go, let's go go
Yeah, yeah

I put an angel in a demon so I'd think they'd never rip me (Always quick to blame me have a feeling that they hate me)
But this feeling getting hazy
But they will never create me
Get a stick on me, I'm lazy
Point it at his head I'm uh [*gunshot*]
Put that shit to your face
Damn I'm scared, I need some space
Woah, ten toes on my head I go insane, yes
What made you the [?] call my name, yeah
She crack it like a window pane
Coke all on my face like Kurt Cobain, no
Blood on my brains like Kurt Cobain, uh
I'm hyped up, but I'm not on cocaine, ay
Getting bloody, might leave it a stain, uh
Sorry bro, but I forgot your name, uhh
Explain how these two things are the same (Kill yourself)
But I'm deep, naming names, like you're robot in the 'frame
Increase the wheels, keep this shit moving, gotta stay in shape
Okay wait
Okay wait I cracked the case
No you didn't, bro you cappin', you ain't look me in the face
Like you just mad that you showed up late
But if you hungry and I ghost you, put some more shit on your plate

I put an angel in a demon soul so they could never rip me (Always quick to blame me have a feeling that they hate me)
But this feeling getting hazy
But they will never create me
Get a stick on me, I'm lazy
Point it at his head I'm uh [*2 gunshots*]
Put that shit to your face
Damn I'm scared, I need some space, hi
Woah, ten toes on my head I go insane, yes
What made you the [?] call my name, yeah
She crack it like a window pane
