

The One Before Me

2nd Suicide

The one before me, she came
Calamity from the skies darkened
I am the one who follows her
I am twilight

All that was bathed in brightness anew
Hot as a thousand hells
All that was bathed in darkness anew
Not a soul to witness the silence

The one before me, she was
Bright, loud and full of noise
I am the Silent Shadow following
Come out of time

Fell out of time
From heaven's wake
Man to eternity

Fell out of time
For death to take
Man to eternity

Aeons ago existence
Came to an abrupt pause
Destruction from the heavens
Without a sound

Fell out of time
From creator's wake
Man to eternity

For our sin
For death to take

Man to Eternity
