

## New Virus

2Rare

I know you see me, see me see you  
Seen the look all in your lashes  
Rock them numbers by yourself, girl  
Keep more focus on your edges  
I drip real hard like I love your flodges  
I know you love the latest fashion  
Never a hood bitch, but ghetto nails  
When she hit her phone, I can hear it tappin'  
No love in this club, lil' mama, you tippin'  
I'm a hood baby, go gender reveal it  
I catch flights, lil' baby, not feelings  
You keep goin' up, let me find out you fiction

All you ever do is party and bullshit  
With your girlfriends, that ho shit  
New virus, caught feelings  
Miss me with that bullshit  
All you ever do is party and bullshit  
With your girlfriends, that ho shit  
New virus, caught feelings  
Miss me with that bullshit

Been about you, still about you  
Can't tell if you fuck with me or parties  
Many men just wanna fuck you  
You got like fifty, that's an army  
Can't be a homebody with her lil' bodies  
Whenever I kiss, won't tell nobody  
Love yourself like you love to party  
That shit ain't good for your health, I'm sorry

All you do is party and be on that bullshit  
Oh, you got the club lit? Oh, you a dumb bitch  
(You know you a dumb bitch, right?)

All you ever do is party and bullshit  
With your girlfriends, that ho shit  
New virus, caught feelings  
Miss me with that bullshit  
All you ever do is party and bullshit  
With your girlfriends, that ho shit  
New virus, caught feelings  
Miss me with that bullshit

All you ever do is party  
Miss me with that bullshit  
Been about you (Check it out)  
Still about you  
All you do is party and bullshit
