

Landing In London

3 Doors Down

Emi **C**
I woke up today in London
Ami **Emi**
As the plane was touching down **C**
And all I could think about was Monday
Ami **Emi**
And maybe I'll be back around
C
If this keeps me away much longer
D **Emi**
I don't know what I will do **C**
You've got to understand it's a hard life
D **Emi**
That I'm going through
C
And when the night falls in around me
Ami **Emi**
I don't think I'll make it through **C**
I'll use your light to guide the way
D **Emi**
Cause all I think about is you
C
Well L.A. is getting kinda crazy
Ami **Emi**
And New York is getting kinda cold **C**
I keep my head from getting lazy
Ami
I just can't wait to get back home
C
And all these days I spend away
Ami **Emi**
I'll make up for this I swear **C**
I need your love to hold me up
D **Emi**
When it's all too much to bear
C
And when the night falls in around me
Ami **Emi**
I don't think I'll make it through **C**
I'll use your light to guide the way
D **Emi**
Cause all I think about is you
C
And all these days I spend away
Ami **Emi**

I'll make up for this I swear

C

I need your love to hold me up
