

Living in Your Hell

3 Doors Down

You say this will be your ride
Just in my faith in you
Let you have another try
You show me of you can do
But now we're go again
Back down demonstrate
I'm open maybe this time now
Truth in lies my need
But I don't think will get alone

If I didn't long die long
In your eyes so well
But maybe I can't play your game
In really lies you tell
You say this is for my god
Oh my god could some hell
You promissed me my heaven
But I'm living in your hell

Maybe in another life
Maybe I can find you there
Oh maybe we can make stright
Oh maybe I just wouldn't care
I've taken this lonely enought
I can't go on this way
So I gues it's over now
This only one can left to say
It's time to be move in on

If I didn't long die long
In your eyes so well
But maybe I can't play your game
In really lies you tell
You say this is for my god
Oh my god could some hell
You promissed me my heaven
But I'm living in your hell

You only want some born to blame
That's just do you are
Well all I wanted to find was something beautiful
I'm from that I have found something to last forever
Well all there was to find this your no better
Your no better, your no better, your no better

If I didn't long die long
In your eyes so well
But maybe I can't play your game
In really lies you tell
You say this is for my god
Oh my god could some hell
You promissed me my heaven
But you know this song to well
But you this is for my good
Oh my god could some hell
You promissed me my heaven
But I'm living in your hell
