## 3 Doors Down

**F#**                      **D**                      **F#**                      **D**  
1. Breath in right away, nothing seems to fill this place  
**F#**                      **D**                      **F#**                      **D**  
I need this every time, take your lies get off my case  
**F#**                      **D**                      **F#**                      **D**  
Someday I will find, a love that flows through me like this  
**F#**                      **D**                      **F#**                      **D**  
This will fall away, this will fall away

**E**                      **F#**                      **D**                      **E**  
R: You're getting closer, to pushing me off of life's little edge  
**E**                      **F#**                      **D**                      **E**  
Cause I'm a loser and sooner or later you know I'll be dead  
**E**                      **F#**                      **D**                      **E**  
You're getting closer, you're holding the rope and I'm taking the fall  
E                      F#                      D(hold)  
Cause I'm a loser, I'm a loser

2. This is getting old, I can't break these chains that hold  
My body's growing cold, there's nothing left of this mind or my soul  
Addiction needs a pacifier, the buzz of this poison is taking me higher  
And this will fall away, this will fall away

R: You're getting closer... (3x)
