

Completely Different

3 Feet Smaller

Every singel day i think about the times we had .
We shared so much pain, but we never felt the same
We're so completely different, we're so completely wrong
Our reationship is dead, and now you sleep with my best frien
ds .
There is something wrong, deep inside my heart . I don't wanna
stay, one more day
on this fucking planet, cuz your not here with me , and i ignor
e the things is see
I hated you, but now i do , hope that you come back cuz i know
you feel inside the same as i .
The day you say'd that you don't want to see me again . Somehow
i felt good, but that's not the way i should (feel) .
The person that i saw in you never told me that I'm just your,
stupid toy I never felt this way before
I don't wanna stay, one more day cuz your not here with me and
i ignore the things i see .
I hated you, but now i miss you and i know you feel inside th
e same as i do.
