

Lead Or Follow

3 Feet Smaller

Stand up and get on your feet
'Cause if not now then when
Now's our moment
We'll succeed, there's no other option
If not us then who
We will get through this
This is what we want and what we live for
It's too late, we can't stop now
I've got your back and you've got mine
Together we will face the decline

Don't you dare surrender
This is our time, we will make it last forever
Woah
Now make your choice
Do you wanna lead or follow?

Don't you dare surrender
This is our time, we will make it last forever
Woah
Now make your choice
Do you wanna lead or follow?

Stand up and get out there
Because if not here then where
Victory is in the air
Failure is out of the question
It's now or never, just remember
This is what we are willing to die for
Can't extinguish this fire
We've got each others back
So you better stand up and step back

Don't you dare surrender
This is our time, we will make it last forever
Woah
Now make your choice
Do you wanna lead or follow?

Don't you dare surrender

This is our time, we will make it last forever
Woah
Now make your choice
Do you wanna lead or follow?

Keiner kann uns stoppen, das ist eine Revolution
Wir folgen keiner Politik, wir folgen keiner Religion
Wir hören auf unser Herz und so lange wir an uns glauben
Kann kein Feind unsere Träume rauben
Wir sind eine Einheit, Eine Armee, unschlagbar
Alle Steine im Weg zerbrechen wir wie Wasser
Sprengen die Ketten, Reißen alle Mauern nieder
Mit erhobener Faust rebellieren wir in unseren Liedern

Follow the Leader in das Paradies
Stillstand, wir sterben auf Raten

Bis man Para schießt
Wir breiten unsre Flügel aus und fliegen weiter
Grenzenlose Freiheit ist unser Flugbegleiter

Lead or follow?

Don't you dare surrender
This is our time, we will make it last forever
Woah
Now make your choice
Do you wanna lead or follow?

Don't you dare surrender
This is our time, we will make it last forever
Woah
Now make your choice
Do you wanna lead or follow?
Lead or follow?
Lead or follow?
Now make your choice
Do you wanna lead or follow?
