

Diamond In The Crush

3

It's a bad way to be sure
To divide the diseased from the pure
'Cause you can never tell
How you gonna find a way
To settle the earthly debt
The game ain't over but you're
Tempted to press reset
Gentlemen, place your bets
You know it happens today

See the lonely boy
Drowning out like an echo
In the rush - rush, rush...
Get a look in his face
He's the only one
Holding up like a diamond
In the crush - crush, crush...

It's a bad way to forget
To obsess on the blood that you let
'Cause you can never tell
How you gonna find a way
To settle the earthly debt
The game ain't over but you're
Tempted to press reset
Gentlemen, place your bets
You know it happens today

See the lonely boy
Drowning out like an echo
In the rush - rush, rush...
Get a look in his face
He's the only one
Holding up like a diamond
In the crush - crush, crush...
But you know it happens in the U-S of A

See the lonely boy
Drowning out like an echo
In the rush - rush, rush...
Take a look in his face
He's the only one
Holding up like a diamond
In the crush - crush, crush...

He's the only one
Holding up like a diamond
In the crush - crush...
Take a look in his face
See the lonely boy
Holding up like a diamond
In the crush - crush, crush...
Crush...
