

Dive

3

Faith - pretending you are not home
I almost believe you
But now you're not alone
Cause I can perceive you

She floats in the water
And I think she's drowning alive
Like a lamb to the slaughter
Boy, don't be a fool
She'll be draining the pool as you dive

Sure - ignorance seems to be free
I'd like to remind you
The price of what you don't see
Oh shit, look out behind you

A ghost in the water
And I think she thinks she's alive
Like a lamb to the slaughter
Boy, don't be a fool
She'll be draining the pool as you...

Dive into the same black hole
(The door is opened up before your eyes)
Survival of the fittest soul
(Except our perception is)
Way too slow
There are no final goodbyes on this earth

Oh...the doc's only daughter
And now...

She floats in the water
And I think she's drowning alive
Like a lamb to the slaughter
Boy, don't be a fool all your life

A ghost in the water
And I think she thinks she's alive
Like a lamb to the slaughter
Boy, don't be a fool
She'll be draining the pool

Oh no, don't be a fool
She'll be draining the pool
Oh no, don't be a fool
She'll be draining the pool as you dive

No, don't be a fool
She'll be draining the pool
Don't be a fool
She'll be draining the pool
Don't be a fool
She'll be draining the pool as you dive
