

Endless Alibi

3

There will come a day
When the rain will fall
The sky will fall, too
A tragedy in blue
And the rage will come
You would not like me when I am angry

But you might like me, yeah
When I've had a few...
A few blue balloons
To raise the ancient ruins of my brain
All my pain, my neverending reign
As king of into the unknown
Have you seen the incandescent queen?
Could you put her on the telephone?

Cause it won't be long
Until we get back home
We're runnin' but it isn't far
To the backseat of my car
In a world that's full of crime
Baby, I just wish that I
Could be your endless alibi

Something in the way
That she says to me
"Come on boy, let's leave
It's time to stop believing in a ghost
From another day
When life was lined with innocent and guilty"

And it never goes away
Until I've had a few...
A few blue balloons
To raise the ancient ruins of my brain
All my pain, my neverending reign
As king of into the unknown
Have you seen the incandescent queen?
Could you put her on the telephone?
Yeah

Cause it won't be long
Until we get back home
We're runnin' but it isn't far
To the backseat of my car
In a world that's full of crime
Baby, I just wish that I
Could be your...

No more heroes
No more zeros
They all have gone away
The future comes today
No more red lines
No more headlines
At all...
The future comes today

And with it melts away
The ice cream memory

Cause it won't be long
Until we get back home
We're runnin' but it isn't far
To the backseat of my car
In a world that's full of crime
Baby, I just wish that I
Could be your endless alibi

Cause it won't be long
Until we get back home
We're runnin' but it isn't far
To the backseat of my car
In a world that's full of crime
Baby, I just wish that I
Could be your endless alibi

(Cause it won't be long)
Yeah
(Runnin' but it isn't far)
Yeah

In a world that's full of crime
Baby, I just wish that I
Could be your endless alibi
