

## Get 2gether

3

When we get together  
Always stormy weather  
Never can we sever for long  
Somewhat nice to see you  
But I would not want to be you  
I can't fight this feeling for long

And when they tell you  
That you don't need eyes to see  
You pack up your bag  
You check your price tag  
Then get back at me  
You know the truth  
That we wear you in that lie  
What about your friends?  
What about all the little sins at all?

When we get together  
Always stormy weather  
Never can we sever for long  
Somewhat nice to see you  
But I would not want to be you  
I can't fight this feeling for long

It's just the system  
Trying to bring another good man down  
Act like you're missing me  
I'll come back around  
You know the truth  
Know it well, you cannot lie  
What about your friends?  
What about all the little sins at all?

When we get together  
Always stormy weather  
Never can we sever for long  
Somewhat nice to see you  
But I would not want to be you  
I can't fight this feeling for long

When we get together  
Always stormy weather  
Never can we sever for long  
Somewhat nice to see you  
But I would not want to be you  
I can't fight this feeling for long, yeah

When we get together  
Always stormy weather  
Never can we sever for long  
Somewhat nice to see you  
But I would not want to be you  
I can't fight this feeling for long, yeah  
I can't fight this feeling for long  
I can't fight this feeling for long  
I can't fight this feeling for long  
I can't fight this feeling for long

Long, long, long, long, 1-1-1-long
