

Nobody likes you  
And nobody hates you  
Looking the facts through  
I try to relax you

(Just) don't go searching the skies  
For the memory of lifetimes  
Seeking replacement  
Don't go back digging the bones  
Of the uninvited secret  
Sealed in your basement

(I) watch you step out of line, girl  
And it's live entertainment  
One at a time, girl  
And it's live entertainment

You like talking to strangers  
You like to dabble in dangers  
Hiding under the table  
Because the sky's raining angels

(Just) don't go searching the skies  
For the memory of lifetimes  
Seeking replacement  
Don't go back digging the bones  
Of the uninvited secret  
Sealed in your basement

(I) watch you step out of line, girl  
And it's live entertainment  
One at a time, girl  
And it's live entertainment

Stuck in the same town  
We're on our way down  
We each get a small share, but we're  
Sick of the same air

(I) watch you step out of line, girl  
(Watch you step out of line)  
And it's live entertainment  
One at a time, girl  
(One at a time)  
And it's live entertainment  
(I) watch you step out of line, girl  
(Watch you step out of line)  
And it's live entertainment  
One at a time, girl  
(One at a time)  
Live entertainment
