

# One Way Town

3

This is a story of a  
Roller coaster child  
In the city living  
Where there once was wild (wild)  
I'm not the enemy  
Not defending thee  
The place where they're sending me  
Is such a long way down, down, down

You know you turn the other way  
In a one way town  
Put your eye to the sky  
Plant your feet into the ground  
What's the word  
Bright as the sun in your eyes  
You left a tear in the dust  
But you never said goodbye

You say that you're quitting  
But you're still gonna do it  
Long song skipping on  
The record in your head (head)  
You say that you're leaving  
But you're walking in circles  
Running from a memory  
That you wanna forget

You know you look the other way  
In a one way town  
Put your eye to the sky  
Plant your feet into the ground  
We'll find a world  
A place where the light never dies  
You left a tear in the dust  
But you never said goodbye

And it's a story of a  
Roller coaster town  
Well you can touch the top of the sky  
But then you're gonna come down, down

Oo, you try to run away  
In a one way town  
Put your eye to the sky  
Plant your feet into the ground  
You found a world  
A place where the light never dies  
You left a tear in the dust  
But you never said goodbye

Cause we're the other way  
In a one way town  
You left a tear in the dust  
But you never settled down  
Another world  
Bright as the sun in your eyes  
You left a tear in the dust

Run away, goodbye
